BLADE

I DON'T MELT

THE ULTIMATE SKATING PERFORMANCE & DEVELOPMENT TREADMILL

You want the best for obvious reasons. BLADE is the ultimate tool for developing technique and improving overall skating abilities.. Coaches and trainers can easily communicate with skaters, providing constant instruction, evaluation and feedback to get results. The BLADE hockey skating treadmill is ideal for all levels of skaters from beginners learning fundamentals to professional athletes seeking stride efficiency and endurance development.

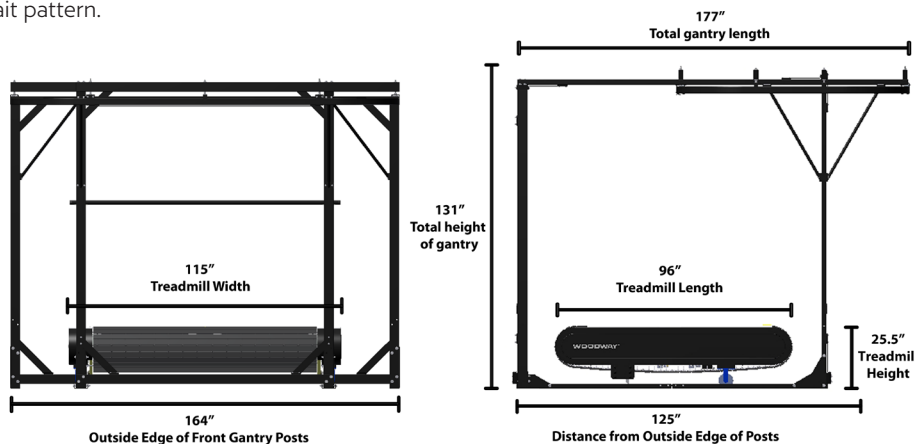

HUMAN PERFORMANCE

There are conventional treadmills and then there are Slat Belt treadmills by WOODWAY USA. Our patented running surface is unlike any other. Your members will rave about how great it feels to run on the rubberized slats, their joints and connective tissues will also take notice. What they will not notice is noise. The Blade is near silent, they can carry on a conversation with their neighbor or turn down the headphones a notch.

The Blade skating surface provides ample space for users and best of all there is no hood, your athletes can glide with totally natural gait pattern.

SAFETY AND RELIABILITY

It was designed to make up for conventional treadmills shortcomings, most notably wear and friction. The rubberized slats are built like a tank, literally. With 316 ABEC 1 rated Ball Bearings the belt glides, which results in years of life with very little maintenance and up to 50% in electrical savings. There is no need to adjust and tension the belt, our design utilized tracking rollers and a toothed pulley.

PERSONAL TRAINER DISPLAY

- Menu driven color LCD screen
- 10 pre programmed workouts
- Ability to create custom user workouts (up to 99)
- Fitness testing (pre-loaded U.S. Military, Medical & Fire Department protocols)
- Multiple LED Readouts (Speed, incline, distance, calories, time, pace, heart rate and METs)

● Standard Feature ○ Optional Feature

GANTRY SYSTEM

- 4 Post Freestanding
- Overhead Continuous Oval Track System
** Installed by facility/blade owners*
- 4 Free Rolling Trolley Safety Harness Mounting Systems

USER INTERFACE	
LED Display Board	NA
Personal Trainer Display Board	●
CSAFE/FitLinxx Compatible	○
Wireless Remote	○
PT Pro/RFID System	○
RS-232 Serial Port Interface	○
PT Pro Software Package (Includes RS 232 Interface)	○

PERFORMANCE SPECIFICATIONS	
(-5%) - (+35%) Incline	●
0-20 MPH (0-32 km/h)	●

PHYSICAL SPECIFICATIONS	
Skating Surface Dimensions	94" W x 83" L (239 x 211 cm)
Belt Type	87 Individual Slats
Drive System	316 ABEC 1 rated Ball Bearings with 32 guide bearings (4 mm lateral tolerance)
Skating Surface	Polyethylene
Drive Motor	5 hp Continuous (15 hp peak) Brushless Servo
Unit Weight	3,000 lb. (Shipping Weight 3,500 lb.)
Width	115" (292 cm)
Length	96" (244 cm)
Height	38"-55" (97-140 cm)
Power Supply	208/230 Vac 30 Amp Power Supply (6-30R Outlet, 30 Amp Dedicated Circuit Required)
Gantry System	○
Overhead Continuous Oval Track Safety Gantry	○
"Practice Ice" 4 ft x 8 ft Sheet	○
Additional Free Rolling Trolley Safety Harness Mounting Systems	○
Additional Fully Adjustable Safety Harnesses	○
Vest Style Safety Harness (sizes S, M, L, XL)	○
Efficient AC Brushless Servo Motor	●
